

Michigan Technological University 403(b) Retirement Plan

MichiganTech

Invest in your retirement—and yourself—today,
with help from Michigan Tech 403(b) Plan
and Fidelity.

YOUR GUIDE TO GETTING STARTED

Invest some of what you earn today for what you plan to accomplish tomorrow.

Dear Michigan Tech employee:

Michigan Tech offers outstanding convenience and a variety of investment options. Take a look and see what a difference enrolling in the plan could make in achieving your goals.

Benefit from:

Convenience. Your contributions are automatically deducted regularly from your paycheck.

Tax savings now. Your pretax contributions are deducted from your pay before income taxes are taken out. This means that you can actually lower the amount of current income taxes you pay each period. It could mean more money in your take-home pay versus saving money in a taxable account.

Tax-deferred savings opportunities. You pay no taxes on any earnings until you withdraw them from your account, enabling you to keep more of your money working for you now.

Portability. You can roll over eligible savings from a previous employer into this Plan. You can also take your plan vested account balance with you if you leave the company.

Investment options. You have the flexibility to select from investment options that range from more conservative to more aggressive, making it easy for you to develop a well-diversified investment portfolio.

Online beneficiary. With Fidelity's Online Beneficiaries Service, you can designate your beneficiaries, receive instant online confirmation, and check your beneficiary information virtually any time.

Catch-up contributions. If you make the maximum contribution to your plan account, and you are 50 years of age or older during the calendar year, you can make an additional "catch-up" contribution of \$5,500 in 2013.

To learn more about what your plan offers, see "Frequently asked questions about your plan" later in this guide.

Sincerely,

Michigan Technological University

Enroll in your plan and invest in yourself today.

Frequently asked questions about your plan.

Here are answers to questions you may have about the key features, benefits, and rules of your plan.

When can I enroll in the Plan?

You can enroll in the Plan at the time of hire or during open enrollment.

How do I enroll in the Plan?

Log on to Fidelity NetBenefits® at www.fidelity.com/atwork or call the Fidelity Retirement Benefits Line at 1-800-343-0860 to enroll in the Plan.

The screenshot shows the Fidelity NetBenefits website interface. At the top, there are navigation tabs for 'Getting Started', 'Guidance & Retirement', 'Investments', and 'Resources'. Below the navigation is a 'Log In' section with fields for 'Username' and 'Password', and a 'Log In' button. To the right of the login form is a 'Welcome' message from Scott Hirsch, a Fidelity professional, with a 'Meet our people' button. Below the welcome message is a 'Time for your annual review' section with a 'Click here' button. On the right side of the page, there are buttons for 'Enroll Now' and 'Consolidate Now', and a list of 'FIDELITY VIEWPOINTS' including 'Navigating volatile markets', 'Reduce the tax hit on investments', and 'See more Fidelity viewpoints'. There are also 'FEATURED HIGHLIGHTS' such as 'See how Fidelity can help plan for all your needs', 'Two minutes to get on track with your retirement savings', 'Should you convert your Traditional IRA to a Roth IRA?', and 'Budget to get out of debt'.

For illustrative purposes only.

How much can be contributed?

Through automatic payroll deduction, you can contribute between 1% and 100% of your eligible pay on a pretax basis, up to the annual IRS dollar limits. Your annual additions to the plan (your contributions and company contributions combined) may not exceed 100% of your pay, or \$50,000 (whichever is less).

What is the IRS contribution limit?

The IRS contribution limit for 2013 is \$17,500.

When is my enrollment effective?

Your enrollment becomes effective once you elect a deferral percentage, which initiates deduction of your contributions from your pay. These salary deductions will generally begin with your next pay period after we receive your enrollment information, or as soon as administratively possible.

What are my investment options?

To help you meet your investment goals, the Plan offers you a range of options. You can select a mix of investment options that best suits your goals, time horizon, and risk tolerance. The many investment options available through the Plan include conservative, moderately conservative, and aggressive funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online at Fidelity NetBenefits.®

Fidelity Freedom® Funds. The Plan also offers the Fidelity Freedom® Funds that offer a blend of stocks, bonds and short-term investments within a single fund. Each Freedom Fund's asset allocation is based on the number of years until the fund's target retirement date. The Freedom Funds are designed for investors who want a simple approach to investing for retirement. Lifecycle funds are designed for investors expecting to retire around the year indicated in each fund's name. The investment risk of each lifecycle fund changes over time as each fund's asset allocation changes. The funds are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be

subject to risks associated with investing in high yield, small cap, commodity-linked and foreign securities. Principal invested is not guaranteed at any time, including at or after the fund's target date.

Fidelity BrokerageLink.® For those desiring the most investment flexibility and choice, the Plan offers a self-directed brokerage option, which gives you access to many other mutual funds. A complete description of the Plan's investment options and their performance, as well as planning tools to help you choose an appropriate mix, are available online at Fidelity NetBenefits.®

What happens if I do not select investment mixes?

We encourage you to take an active role in the Plan and choose investment options that best suits your goals, time horizon, and risk tolerance. If you do not select specific investment options in the Plan, your contributions will be invested in the Fidelity Freedom® Fund with the target retirement date closest to the year you might retire, based on your current age and assuming a retirement age of 65, at the direction of the Plan Sponsor. Please refer to the chart in the *Investment Options* section of this guide under *Lifecycle Funds* for more detail. If no date of birth or an invalid date of birth is on file at Fidelity your contributions may be invested in the Fidelity Freedom® Income Fund. For more information about the Fidelity Freedom® Fund options, log into www.fidelity.com/atwork/.

What "catch-up" contribution can I make?

If you have reached age 50 or will reach 50 during the calendar year January 1 - December 31 and are making the maximum plan or IRS pretax contribution, you may make an additional "catch-up" contribution each pay period. The maximum annual catchup contribution is \$5,500. Going forward, catch-up contribution limits will be subject to cost of living adjustments (COLAs) in \$500 increments.

You make catch-up contributions through payroll deduction, the same way you make regular contributions.

When am I vested?

You are immediately 100% vested in your own contributions to Michigan Tech 403(b) Plan, as well as in any earnings.

Can I make withdrawals from my account?

Withdrawals from the Plan are generally permitted when you terminate your employment, retire or become permanently disabled as defined by your Plan. Keep in mind that withdrawals are subject to income taxes and possibly to early withdrawal penalties.

The taxable portion of your withdrawal that is eligible for rollover into an individual retirement account (IRA) or another employer's retirement plan is subject to 20% mandatory federal income tax withholding, unless it is rolled directly over to an IRA or another employer plan. (You may owe more or less when you file your income taxes.) If you are under age 59½, the taxable portion of your withdrawal is also subject to a 10% early withdrawal penalty, unless you qualify for an exception to this rule. To learn more about and/or to request a withdrawal, log on to Fidelity NetBenefits® at www.fidelity.com/atwork or call the Fidelity Retirement Benefits Line at 1-800-343-0860. The plan document and current tax laws and regulations will govern in case of a discrepancy. Be sure you understand the tax consequences and your plan's rules for distributions before you initiate a distribution. You may want to consult your tax adviser about your situation.

Can I move money from another retirement plan into my account in Michigan Tech 403(b) Plan?

You are permitted to roll over eligible pretax contributions from another 401(k) or a 403(b) plan account or eligible pretax contributions from conduit individual retirement accounts (IRAs). A conduit IRA is one that contains only money rolled over from an employer-sponsored retirement plan that has not been

mixed with regular IRA contributions. Call the Fidelity Retirement Benefits Line at 1-800-343-0860 or log on to Fidelity NetBenefits® at www.fidelity.com/atwork for details. You should consult your tax adviser and carefully consider the impact of making a rollover contribution to your employer's plan because it could affect your eligibility for future special tax treatments.

How do I access my account?

You can access your account online through Fidelity NetBenefits® at www.fidelity.com/atwork or call the Fidelity Retirement Benefits Line at 1-800-343-0860 to speak with a representative or use the automated voice response system, virtually 24 hours, 7 days a week.

Where can I find information about exchanges and other plan features?

You can learn about loans, exchanges, and more online through Fidelity NetBenefits® at www.fidelity.com/atwork. In particular, you can access loan modeling tools that illustrate the potential impact of a loan on the long-term growth of your account. You will also find a withdrawal modeling tool, which shows the amount of federal income taxes and early withdrawal penalties you might pay, along with the amount of earnings you could potentially lose by taking a withdrawal. You can also obtain more information about loans, withdrawals, and other plan features, by calling the Fidelity Retirement Benefits Line at 1-800-343-0860 to speak with a representative or use the automated voice response system, virtually 24 hours, 7 days a week.

How do I obtain additional investment option and account information?

The Employer has appointed Fidelity to provide additional information on the investment options available through the Plan. Also, a statement of your account may be requested by phone at 1-800-343-0860 or reviewed online at www.fidelity.com/atwork.

Investment Options

Here is a comprehensive list of investment options for Michigan Tech 403(b) Plan. For up-to-date performance information and other fund specifics, go to www.fidelity.com/atwork.

Lifecycle Funds

Placement of investment options within each risk spectrum is only in relation to the investment options within that specific spectrum. Placement does not reflect risk relative to the investment options shown in the other risk spectrums.

Target date investments are represented on a separate spectrum because they are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risks associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories of the investment options and not on the actual security holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of 04/30/2013. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category, and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decision. The spectrum does not represent actual or implied performance.

Fidelity BrokerageLink® combines the convenience of your workplace retirement plan with the additional flexibility of a brokerage account. It gives you expanded investment choices and the opportunity to more actively manage your retirement contributions. A self-directed brokerage account is not for everyone. If you are an investor who is willing to take on the potential for more risk and you are prepared to assume the responsibility of more closely monitoring this portion of your portfolio, it could be appropriate for you. However, if you do not feel comfortable actively managing a portfolio beyond those offered through your plan's standard investment options, then a self-directed brokerage account may not be appropriate for you. Additional fees apply to a brokerage account; please refer to the fact sheet and commission schedule for a complete listing of brokerage fees. Remember, it is always your responsibility to ensure that the options you select are consistent with your particular situation, including your goals, time horizon, and risk tolerance.

Investment Options

Before investing in any mutual fund, please carefully consider the investment objectives, risks, charges, and expenses. For this and other information, call or write Fidelity for a free prospectus or, if available, a summary prospectus. Read it carefully before you invest.

AllianzGI NFJ International Value Fund Class A

VRS Code: 18136

Fund Objective: The investment seeks long-term growth of capital and income.

Fund Strategy: The fund normally invests at least 65% of its net assets in common stocks and other equity securities (such as preferred stocks, convertible securities and warrants) of non-U.S. companies with market capitalizations greater than \$1 billion. It normally invests significantly in securities that the portfolio managers expect will generate income (for example, by paying dividends). The fund may invest up to 50% of its assets in emerging market securities. It may also achieve its exposure to non-U.S. equity securities through investing in American Depositary Receipts (ADRs).

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

 - As of January 28, 2013, this fund changed its name from Allianz NFJ International Value Fund.
-

Calvert Bond Portfolio Class A

VRS Code: 93070

Fund Objective: The investment seeks to provide as high a level of current income as is consistent with prudent investment risk and preservation of capital through investment in bonds and other debt securities.

Fund Strategy: The fund uses an active strategy, seeking relative value to earn incremental income. It normally invests at least 80% of its net assets (including borrowings for investment purposes) in bonds. The fund invests principally in bonds issued by U.S. corporations, the U.S. government or its agencies, and U.S. government-sponsored enterprises. The fund is non-diversified.

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

-

Calvert Equity Portfolio Class A

VRS Code: 93071

Fund Objective: The investment seeks growth of capital.

Fund Strategy: The fund normally invests at least 80% of net assets, including borrowings for investment purposes, in equity securities (common stock). It invests primarily in common stocks of U.S. large-cap companies. The fund defines large-cap companies as those whose market capitalization falls within the range of the S&P 500 Index. It may also invest in mid-cap stocks and may invest up to 25% of net assets in foreign stocks.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

- As of January 31, 2011, this fund changed its name from Calvert Social Investment Fund Equity Portfolio.

Columbia Dividend Income Fund Class A

VRS Code: 42079

Fund Objective: The investment seeks total return.

Fund Strategy: The fund normally invests at least 80% of net assets in a diversified portfolio of income-producing equity securities. It invests principally in securities of companies that the adviser believes are undervalued but also may invest in securities of companies that the adviser believes have the potential for long-term growth. The fund may invest in companies that have market capitalizations of any size. It may invest up to 20% of net assets in debt securities, including securities that are rated low and below investment grade. The fund may also invest up to 20% of net assets in foreign securities.

Fund Risk: Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

DWS S&P 500 Index Fund Class S

VRS Code: 48643

Fund Objective: The investment seeks investment results that correspond to the total return of common stocks publicly traded in the United States, as represented by the S&P 500 Index.

Fund Strategy: The fund is a feeder fund that invests substantially all of its assets in a "master portfolio," the DWS Equity 500 Index Portfolio ("Portfolio"), which will invest directly in securities and other instruments. It intends to invest at least 80% of assets, determined at the time of purchase, in stocks of companies included in the S&P 500 (Reg. TM) Index and in derivative instruments. The fund may also hold short-term debt securities and money market instruments.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fidelity BrokerageLink®

VRS Code: 99265

Fund Objective: A brokerage account within your retirement plan that offers the opportunity to choose investments from a range of Fidelity and non-Fidelity mutual funds. This account is neither a mutual fund nor is it managed by any of the Fidelity Investments group of companies. Brokerage services are provided through Fidelity Brokerage Services LLC, a member of the New York Stock Exchange and Securities Investor Protection Corporation.

Fund Strategy: To provide a broad range of mutual funds that allow you expanded choices in managing your retirement savings more actively.

Fund Risk: You alone decide how to invest the assets in your Fidelity BrokerageLink account. You can invest in a vast array of mutual funds from either Fidelity, or from Fidelity and other mutual fund companies through BrokerageLink. There are additional fees for investing in a BrokerageLink account. See your plan's fact sheet for details.

Who may want to invest:

- Someone who is comfortable with evaluating and researching a broad universe of mutual funds, and who wants to invest part of his or her retirement savings in mutual funds through a brokerage account.
 - Someone who wants the highest degree of variety in selecting mutual funds investments for his or her retirement savings, and who is familiar with how a brokerage account operates.
-

Fidelity Freedom® 2000 Fund

VRS Code: 00370

Fund Objective: Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

Fund Strategy: Investing in a combination of underlying Fidelity domestic equity, international equity, bond, and short-term funds using a moderate asset allocation strategy designed for investors expected to have retired around the year 2000. Allocating assets among underlying Fidelity funds according to an asset allocation strategy that becomes increasingly conservative until it reaches approximately 15% in domestic equity funds, 5% in international equity funds, 40% in bond funds, and 40% in short-term funds (approximately 10 to 15 years after the year 2000). Ultimately, the fund will merge with Fidelity Freedom Income Fund.

Fund Risk: The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked, and foreign securities. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

-

Fidelity Freedom® Income Fund**VRS Code:** 00369

Fund Objective: Seeks high total current income and, as a secondary objective, capital appreciation.

Fund Strategy: Investing in a combination of underlying Fidelity equity, fixed-income, and short-term funds using a moderate asset allocation strategy designed for investors already in retirement. Allocating assets among underlying Fidelity funds according to a stable asset allocation strategy of approximately 14.6% in domestic equity funds, 5.4% in international equity funds, 35% in investment-grade fixed-income funds, 5% in high yield fixed-income funds, and 40% in short-term funds.

Fund Risk: The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments entail issuer default and credit risk, inflation risk, and interest rate risk (as interest rates rise, bond prices usually fall and vice versa). This effect is usually more pronounced for longer-term securities. Principal invested is not guaranteed at any time, including at or after retirement.

Fidelity® Cash Reserves

VRS Code: 00055

Fund Objective: Seeks as high a level of current income as is consistent with the preservation of capital and liquidity.

Fund Strategy: Investing in U.S. dollar-denominated money market securities of domestic and foreign issuers and repurchase agreements. Investing more than 25% of total assets in the financial services industries. Potentially entering into reverse repurchase agreements.

Fund Risk: *An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.* Interest rate increases can cause the price of money market securities to decrease. Entities located in foreign countries can be affected by adverse political, regulatory, market, or economic developments in those countries. Changes in government regulation and interest rates and economic downturns can have a significant negative effect on issuers in the financial services sector.

Harbor International Fund Investor Class**VRS Code:** 18673**Fund Objective:** The investment seeks long-term total return, principally from growth of capital.**Fund Strategy:** The fund invests normally in a minimum of ten countries throughout the world, focusing on companies located in Europe, the Pacific Basin and emerging industrialized countries whose economies and political regimes appear stable. It invests primarily (no less than 65% of its total assets) in common and preferred stocks of foreign companies, including those located in emerging market countries. Companies in the fund's portfolio generally have market capitalizations in excess of \$1 billion at the time of purchase.**Fund Risk:** Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. JPMorgan Core Bond Fund Select Class**VRS Code:** 20888**Fund Objective:** The investment seeks to maximize total return by investing primarily in a diversified portfolio of intermediate- and long-term debt securities.**Fund Strategy:** The fund is designed to maximize total return by investing in a portfolio of investment grade intermediate- and long-term debt securities. As part of its main investment strategy, it may principally invest in corporate bonds, U.S. treasury obligations and other U.S. government and agency securities, and asset-backed, mortgage-related and mortgage-backed securities. The fund's average weighted maturity will ordinarily range between four and 12 years.**Fund Risk:** In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.**Fund short term trading fees:** None**Footnotes:**

- Weighted average maturity (WAM) is the weighted average of all the maturities of the securities held in a fund. WAM for money market funds can be used as a measure of sensitivity to interest rate changes. Generally, the longer the maturity, the greater the sensitivity. WAM for money market funds is based on the dollar-weighted average length of time until principal payments must be paid, taking into account any call options exercised by the issuer and any permissible maturity shortening devices, such as demand features and interest rate resets. For bond funds, WAM can be used as a measure of sensitivity to the markets. Generally, the longer the maturity, the greater the sensitivity. The WAM calculation for bond funds excludes interest rate resets and only takes into account issuer call options if it is probable that the issuer of the instrument will take advantage of such options.

PIMCO Real Return Fund Administrative Class

VRS Code: 45805

Fund Objective: The investment seeks maximum real return, consistent with preservation of capital and prudent investment management.

Fund Strategy: The fund normally invests at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. It invests primarily in investment grade securities, but may invest up to 10% of its total assets in high yield securities ("junk bonds") rated B or higher. The fund is non-diversified.

Fund Risk: The interest payments of TIPS are variable, they generally rise with inflation and fall with deflation. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Sentinel Common Stock Fund Class A

VRS Code: 18847

Fund Objective: The investment seeks a combination of growth of capital, current income, growth of income and relatively low risk as compared with the stock market as a whole.

Fund Strategy: The fund normally invests at least 80% of its net assets in common stocks. It invests mainly in a diverse group of common stocks of well-established companies, typically above \$5 billion in market capitalization, many of which historically have paid regular dividends. The fund may invest up to 25% of its assets in securities within a single industry. It may invest without limitation in foreign securities. Under normal circumstances, the fund invests predominantly in common stocks of U.S. companies.

Fund Risk: Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Spartan® Real Estate Index Fund - Fidelity Advantage Class

VRS Code: 02354

Fund Objective: The fund seeks to provide investment results that correspond to the total return of equity REITs and other real estate-related investments.

Fund Strategy: Normally investing at least 80% of assets in securities included in the Dow Jones U.S. Select Real Estate Securities Index. Lending securities to earn income for the fund.

Fund Risk: Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry. Non-diversified funds can be more volatile because they can invest a greater portion of their assets in securities of a smaller number of individual issuers.

Fund short term trading fees: This fund has a Short-term Redemption Fee of 0.75% for shares held less than 90 days.

Footnotes:

Spartan® U.S. Bond Index Fund - Fidelity Advantage Class

VRS Code: 02324

Fund Objective: Seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Barclays U.S. Aggregate Bond Index.

Fund Strategy: Normally investing at least 80% of the fund's assets in bonds included in the Barclays U.S. Aggregate Bond Index. Using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

Fund Risk: In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The fund can invest in securities that may have a leveraging effect (such as derivatives and forward-settling securities) which may increase market exposure, magnify investment risks, and cause losses to be realized more quickly.

Fund short term trading fees: None

-

T. Rowe Price Blue Chip Growth Fund Advisor Class

VRS Code: 43370

Fund Objective: The investment seeks long-term capital growth; income is a secondary objective.

Fund Strategy: The fund will normally invest at least 80% of assets in the common stocks of large and medium-sized blue chip growth companies. It focuses on companies with leading market position, seasoned management, and strong financial fundamentals. The fund may sell securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

Fund Risk: Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Fund short term trading fees: None

-

T. Rowe Price Real Estate Fund Advisor Class

VRS Code: 18840

Fund Objective: The investment seeks long-term growth through a combination of capital appreciation and current income.

Fund Strategy: The fund normally invests at least 80% of its net assets (including any borrowings for investment purposes) in the equity securities of real estate companies. It is likely to maintain a significant portion of assets in real estate investment trusts (REITs). REITs pool money to invest in properties (equity REITs) or mortgages (mortgage REITs). The fund generally invests in equity REITs. It may also invest in foreign stocks in keeping with the fund's objectives.

Fund Risk: Real Estate is a cyclical industry that is sensitive to interest rates, economic conditions (both nationally and locally), property tax rates, and other factors. Changes in real estate values or economic downturns can have a significant negative effect on issuers in the real estate industry. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Sector funds can be more volatile because of their narrow concentration in a specific industry. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Templeton Global Bond Fund Class A

VRS Code: 99856

Fund Objective: The investment seeks current income with capital appreciation and growth of income.

Fund Strategy: Under normal market conditions, the fund invests at least 80% of its net assets in "bonds." Bonds include debt securities of any maturity, such as bonds, notes, bills and debentures. It invests predominantly in bonds issued by governments and government agencies located around the world. The fund may invest up to 25% of its total assets in bonds that are rated below investment grade. It regularly uses various currency related transactions involving derivative instruments. The fund is non-diversified.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Wells Fargo Advantage Emerging Markets Equity Fund Administrator Class

VRS Code: 85362

Fund Objective: The investment seeks long-term capital appreciation.

Fund Strategy: The fund normally invests at least 80% of its net assets in emerging market equity securities. The fund invests principally in equity or other listed securities of emerging market companies. It consider emerging market companies to include companies that are traded in, have their primary operations in, are domiciled in or derive a majority of their revenue from emerging market countries as defined by the MSCI Emerging Markets Index. The fund may have exposure to stocks across all capitalizations and styles and will be diversified across countries and sectors.

Fund Risk: Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Transfer/Rollover/Exchange Form Instructions

Reference the instructions below while completing the form. For additional assistance, please contact Fidelity Investments at 1-800-343-0860 or, for the hearing impaired, (TTY) 1-800-259-9743, Monday through Friday, 8 a.m. to midnight Eastern time (except for New York Stock Exchange holidays).

1. YOUR INFORMATION

Please provide your information in this section.

2. INVESTMENT PROVIDER YOU ARE MOVING MONEY FROM

Please review your most recent statement for this name and address, and include a copy of the statement with this form. **Please contact your previous investment provider to see if additional paperwork is required.**

3. ACCOUNT(S) OR CONTRACT(S) TO MOVE

Account or Contract Number: This number is available on your previous investment provider account statement. If you are unable to locate this number on your statement, please contact the Investment Provider. If you do not provide an account or contract number, we will use your Social Security number or U.S. Tax Identification number to request the assets to be moved.

Type of Account or Contract: If you are unsure of the type of account or contract, please contact the previous investment provider or refer to your statement. Select at least one.

The Account or Contract Number above is from: Please see the descriptions below that relate to each of the four transactions. If you choose "A Previous Employer," provide the name of that employer.

The Same Employer as my Employer Plan with Fidelity. Movement of assets from 403(b) to 403(b) will be requested as a vendor or contract exchange. Movement of money between the same plan types, excluding 403(b) plans (401(a) to 401(a), 401(k) to 401(k), 457(b) to 457(b)), will be requested as an in-plan transfer. Movement of money between different plan types will be requested as a Rollover.

A Previous Employer. For 403(b) and 401(a)/(k) plans, this is a Rollover transaction. For governmental 457(b) plans, this is a rollover unless Fidelity receives direction to process as a transfer.

A Rollover IRA. This is a Rollover transaction. After-tax value may not be rolled from an IRA.

A Traditional IRA or SEP IRA. This is a Rollover transaction. Roth IRAs and Coverdell IRAs cannot be accepted.

Liquidation Amount: Specify the amount of money you want moved to your Fidelity account. If you choose "Full Liquidation/100%," Fidelity will request your full balance. If you choose "Partial Liquidation," Fidelity will request the dollar amount or percentage you specify. **If you do not specify an amount, Fidelity will move/liquidate 100%.** If you are moving 457(b) assets, please be aware that governmental 457(b) assets must be moved into a governmental 457(b) plan, and nongovernmental 457(b) assets must be moved into a nongovernmental 457(b) plan. Transfers from nongovernmental 457(b) plans are not provided for on this form. Talk with your plan sponsor or call Fidelity to discuss transfers from nongovernmental 457(b) plans. Rollovers from 403(b) plans, 401(a)/401(k) plans, and IRAs to governmental 457(b) plans must be recordkept in separate rollover sources to limit the distributions that may be subject to a 10% early distribution penalty.

4. YOUR FIDELITY ACCOUNT INFORMATION

7. YOUR SIGNATURE

By signing this form:

- I hereby direct the investment provider identified on this form in Section 2 to liquidate the designated amount of the account(s) listed on this form, and to release the proceeds to my account under my employer's plan, except to the extent my current employer or any of my former employers prohibit such release. In the event of such prohibition, I hereby direct said investment provider to retain the portion of my account(s) that cannot be released in a separate account or contract and to release the remainder.
- I hereby agree to the terms and conditions stated in this form, including the instructions, and certify that I am requesting a vendor or contract exchange, in-plan transfer, or rollover, of my retirement plan assets in accordance with applicable IRS and plan rules.
- I certify under the penalties of perjury that my Social Security or U.S. Tax Identification number on this form is correct.
- I certify that the information provided on this form is true, accurate, and complete to the best of my knowledge.
- I acknowledge that I have read the prospectus(es) for any mutual fund in which I invest and agree to the terms.
- I hereby agree that if my assets will be sent to Fidelity in installments, the first installment may be invested according to my instructions on this form. All subsequent installment payments as well as any residual balances not received within 30 days will be invested according to the investment elections currently in place with Fidelity for the Plan at the time my assets are received by Fidelity.

For 403(b)-to-403(b) vendor or contract exchanges

- I understand that any balances I am exchanging from a 403(b)(1) annuity into a 403(b)(7) custodial account may be subject to more restrictive withdrawal provisions.
- I understand that if I exchange a contribution source that is not allowed by the Plan, the value associated with the unacceptable source will be returned to the investment provider named in Section 2.
- I direct Fidelity to treat all monies as pretax contributions made subsequent to 12/31/1988 unless my prior investment provider provides Fidelity with account balances as of 12/31/1988 and post-1988 salary reduction contributions.
- I direct Fidelity to treat the entire balances as subject to minimum distribution requirements unless my prior investment provider provides Fidelity with account balances as of 12/31/1986.
- I direct Fidelity to allocate the entire balance to the most restrictive source in the current employer's plan unless my prior investment provider provides Fidelity with the sources of the exchanged amount under the previous plan.
